# WHY HEROES TRUST STREAMLIGHT.

*It all comes down to performance. Period.*

*People who depend on their flashlights - often for their lives - need to be able to count on that flashlight to work. Every time. When it's freezing cold, scorching hot, desert dry, or rainforest humid. When it's been beat up, abused, dropped in water, or left in icy snow.*

*They need to know that their flashlight will deliver the light they need for the task at hand. Whether it's lighting up a whole room, throwing a beam way down a path or up to the sky, or reading a map without being seen.*

*When size and run time are also part of the performance, our customers know they can trust Streamlight ... to shine brighter, work better, and last longer.*

## **BEHIND THE PERFORMANCE**

*A lot goes into bringing you lights that deliver this kind of performance. It begins with talking to customers and learning what they need. Understanding how lights are used in different situations leads to innovative designs and game-changing technologies. And when we think we've met the challenge with a new light, we put it through the toughest tests in the industry to make sure it will perform as needed.*

*Your life may not depend on the performance of your flashlight, but when you need a light, you need it to work, and you need it to make you safer and more productive. So whether you're in combat, on the beat, putting out fires, installing plumbing, working on utilities, camping in the woods, fixing an engine, tracking a lost child, or just lighting your home in a power failure, you can trust Streamlight.*

# DIFFERENT KINDS OF BEAMS FOR DIFFERENT KINDS OF TASKS.

## STREAMLIGHT BUILDS PERFORMANCE. PERIOD.

With three kinds of beams, Streamlight has made it possible to choose a light that really fits the job at hand. Whether you need to see what's way up ahead, what's all around you, or if you just need a great, dependable, multi-purpose light, Streamlight has exactly what you need.

### TRADITION SERIES

**THE TRADITION SERIES** This family of flashlights delivers the optimal balance of a bright, far-reaching beam, ample peripheral light, and long run times. When you're out in the field or on any job that requires light for long periods, these are the flashlights you want by your side. Their brightness, power, performance, cost, and extended run times make them perfect for a variety of everyday tasks. They're Streamlight's most popular lights; now with enhanced performance.

#### PERFORMANCE CHARACTERISTICS

- Optimal balance of candela and lumens
- Longest regulated run times
- The best value

#### TYPICAL USES

- Law enforcement duty light
- Day-to-day industrial use
- General contractor use

### HP SERIES

**THE HP SERIES** These High Performance flashlights throw light a long distance. They're great for illuminating the entire length of a dark alley, for inspecting utility lines from the ground, and for any task that requires a far-reaching beam.

#### PERFORMANCE CHARACTERISTICS

- High-candela beam
- Delivers long-range lighting
- Sheds a bright peripheral beam

#### TYPICAL USES

- See all the way to the end of a dark alley
- Inspecting utility lines from the ground
- Search and Rescue missions and down range illumination

### HL SERIES

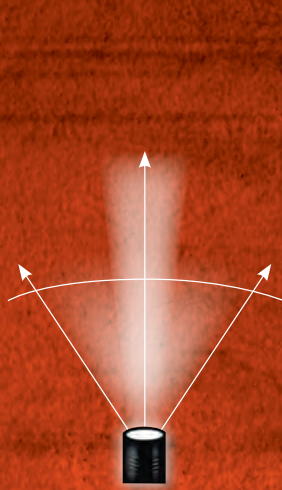

**THE HL SERIES** These High Lumen flashlights (500 - 1,100+ lumens) have a wide, side-to-side beam. Our HL Series lights illuminate an entire area, including what may be hiding in the sides and corners. They perform like floodlights, illuminating a whole room, vehicle, or any area with bright, revealing light.

#### PERFORMANCE CHARACTERISTICS

- High-lumen beam
- Delivers maximum illumination
- Provides a good level of candela

#### TYPICAL USES

- Clearing a dark scene or searching an alley
- Vehicle stops or searches
- Wherever you want wide scene illumination

# **STREAMLIGHT INNOVATION MORE USB-RECHARGEABLE FOR EVEN MORE**

*We're expanding our family of USB-rechargeable lights to offer you more convenience and added versatility. There are now three USB-rechargeable Streamlight products, including a penlight, a small clip-on light, and a headlamp.*

*Rechargeability saves money over the lifetime of a flashlight. You won't have to keep buying batteries or worry about having batteries on-hand. These lights offer a quick, easy, convenient way to recharge - simply by connecting to a USB port, an AC wall adaptor or using a USB charger that plugs into your vehicles on-board USB port.*

*Since most of us have a cell phone, laptop, tablet, or some mobile device that charges this way, and many newer vehicles include a USB port, it's easy to keep these lights charged. Just plug them in the same way you charge the other devices you rely on every day. And because our Streamlight USB-rechargeable lights can also be plugged into any AC/USB wall adaptor, you can easily charge them at home or on the go.*

*When a power outage strikes - a time when you really need a good flashlight - you can recharge your light in your vehicle or grab a charge from a laptop or tablet. It's quick, easy, and convenient.*

# LIGHTS CONVENIENCE.

## OUR USB-RECHARGEABLE LIGHTS CURRENTLY INCLUDE:

### CLIPMATE® USB

This small, compact, multi-function dual LED light clips to your pocket or cap for hands-free use. It features both a bright white light and a night vision red light. A flexible, extension cable lets you target the beam where you need it. It recharges by plugging into a USB port with its built-in charge tab or optional AC wall adaptor.

### STYLUS PRO® USB

The powerful Stylus Pro® penlight has become a staple for all kinds of professionals who need a dependable light that's easily accessible at all times. The new rechargeable USB model saves money on batteries and, with routine recharging, it's always ready when needed. Its ingenious sliding metal sleeve protects the USB port and it's fully regulated for 70 lumens over 3.5 hours.

### DOUBLE CLUTCH™ USB

This dual-power, dual function, dual output headlamp gives you the flexibility of using either a USB-rechargeable battery or 3 AAA alkaline batteries. It also lets you choose either a spot or a flood beam, both with high and low mode.

**“YOUR LIGHTS HAVE BEEN ON MY BELT FOR 15 YEARS. NOT ONCE HAVE THEY FAILED!”**

*I recently made the big mistake of ordering and using a competitor's product. It was a huge mistake. I have since returned completely and totally to Streamlight. Your lights are the toughest and most reliable on the market and I am proud to carry them with me on duty and off. For 15 years, your lights have been on my belt and not once have they ever failed. Thank you for all the great products.*

*Sincerely,  
Sergeant Philip Freeman  
Apache Junction Police Department*

// TELL US YOUR STORY ... 

**STINGER<sup>®</sup> CLASSIC LED**

So many people loved the size, shape and feel of the original Stinger xenon that we updated it to a powerful, durable, rechargeable LED flashlight. It has 390 lumens on high, a smooth beam and lots of peripheral light.

**STINGER CLASSIC LED**

**BATTERY:** 3-cell, 3.6V NiCd sub-C. Available NiMH sub-C.

**STREAMLIGHT STORIES...**

**“IN OVER 15 YEARS, I’VE DROPPED MY SL-20X PLENTY OF TIMES, BUT IT’S NEVER LET ME DOWN!”**

*“My Streamlight SL-20X has been working with me in a steel mill nearly every day for over 15 years. It’s hard to imagine harsher conditions anywhere else. This light has been dropped off of 40’ crane runways, into sluiceways and pits (to name a few things), seen extremes of hot and cold, and banged around every way imaginable. Although it looks a bit weathered, it still works like new.”*

*Richard C. Burns Jr.  
Highspire, PA*

**SL-20LP®**

# LIGHT UP THE WORLD ANYWHERE YOU WANT.

## PORTABLE SCENE LIGHT

Our newest portable scene light provides rapid deployment on site, and it goes anywhere. With its 90° swivel neck, it's easy to shine light into the most out-of-the-way place. The head, identical to the E-Flood® HL, extends to 72" within seconds. It provides 3 levels of lighting and substantial run time to last through several shifts, even days. The unique diffuser lets you select a flood or spot beam in all three levels. It's designed to adapt to tight spaces, but rugged enough to be stable in wide open terrain or steps. The regulated light provides consistent output throughout the life of the battery. It's an indispensable tool for first responders, construction crews, and utility workers.

### PORTABLE SCENE LIGHT

**BATTERY:** Zero-maintenance 12V, 14.4 Ah sealed lead acid. Can also be powered by 12V DC power cord.

**SIZE:** 22" x 6.5" x 11"  
(55.88 x 16.5 x 27.9 cm)

**WEIGHT:** 25 lb (11.3 kg)

**COLOR:** Yellow

NEW FOR '14

### HL SERIES

Full extension to 72" with the stabilization legs fully deployed and locked in less than 30 seconds

Cord is built into the pole avoiding snags during deployment

Balanced design; lead Acid batteries provide ballast and stability

### Special Features:

- Full deployment in 30 seconds
- Pole extends to 72"; cord built into the pole to avoid snags
- Stabilization legs provide balance on uneven surfaces.

**E-FLOOD® LITEBOX® HL™**

The intense brightness of its 3600 lumens stretches from side to side and floods an entire area with light. Unique diffuser lets you select from a flood and spot lens in all three lighting modes. 90° swivel neck lets you aim light where it's needed. Ideal for illuminating a rescue scene, an entire plant floor or any site that requires a large flood beam. The portability and full illumination is perfect for underground construction.

**E-FLOOD LITEBOX HL**

**BATTERY:** Zero-maintenance 12V, 14.4 Ah sealed lead acid

The Power Failure System features "Smart" power failure circuitry which automatically illuminates the light when the power goes off

**NFPA**

Rack meets requirements of NFPA 1901-14.1.11.2 (2003) mounted in any position

E-Flood FireBox includes dual rear LEDs.

Six C4® LEDs spread light over an entire area. It has an extended run time - 18 hrs. on low - so you can keep large areas illuminated no matter how long your shift lasts. With its swivel head, you can point light right where it's needed. The FireBox has 2 rear blue LEDs so you can be seen from behind: a life-saving feature for firefighters!

**E-FLOOD LITEBOX / E-FLOOD FIREBOX**

Power Failure System

E-Spot FireBox includes dual rear LEDs.

**NFPA**

Rack meets requirements of NFPA 1901-14.1.11.2 (2003) mounted in any position

Three C4® LEDs spotlight an area with focused bright light so you can search or inspect from a distance. Its beam has more of a hotspot than the E-Flood, providing more concentrated, brighter light. Its swivel head makes it easy to inspect high bays, ceilings, and out-of-the-way places. IPX4-rated for water-resistance. Optimized electronics provide regulated intensity. Unbreakable, scratch-resistant lens.

**FIRE VULCAN® LED**

This lightweight lantern with taillight LEDs helps you be seen even in thick smoke. It's IPX7-rated for water resistance to 1 meter for 30 minutes. It even floats! Delivers regulated, consistent light throughout battery life. The light modes are programmable, so you can control the order in which the modes come on. Features an unbreakable, scratch-resistant, O-ring sealed lens.

**FIRE VULCAN LED**

**BATTERY:** 2 lightweight Lithium-ion nanotechnology cells

**SIZE:** 7.5" x 5" x 6.5"  
(19.05 x 12.7 x 16.51 cm)

THE HID LITEBOX:  
**THE POWER TO LIGHT AN ENTIRE SCENE.**

**HID LITEBOX®**

This portable, one million candela searchlight illuminates objects up to a mile away. Its 35-watt, high intensity xenon lamp has a 3,000-hour minimum lifetime and a 90° swivel head. The intense brightness and amazing 1-mile reach make this the ideal handheld light when you absolutely must be able to inspect an entire area quickly and efficiently. It plugs into your vehicle's power source for an unlimited run time.

**HID LITEBOX**

**WAYPOINT®**

Trigger style switch with momentary operation.

This long-distance, pistol-grip lantern is the light you need to inspect a power line from the ground, find a dock from the interior of a lake or to see whatever is way up ahead. Its beam reaches about the length of 6 football fields! It also has plenty of peripheral light, so you can see what's all around you. Set it down to illuminate an entire area or aim it to check on trees or power lines far away. This next gen alkaline features 3 modes including a strobe for signaling.

**WAYPOINT**

**BATTERY:** 4 "C" batteries (not included).  
Can also be powered by 12V DC power cord (included)

**SIZE:** 6.75" x 7.14" x 3.5"  
(17.15 x 18.14 x 8.89 cm)

**WEIGHT:** 1 lb 12.8 oz (816 g)

- IPX4-rated for water-resistance.
- 1 meter impact-resistance tested.
- Integrated stand for hands-free scene lighting.

# WAYPOINT RECHARGEABLE... 5 FEET OF CHARGING CORD 1,800 FEET OF LIGHT.

## WAYPOINT® RECHARGEABLE

The rechargeable model has a broader, wider beam than the original Waypoint. It spreads bright light across a whole room, campsite or backyard illuminating everything, yet its beam still reaches an impressive 560 meters. IPX8 rated design waterproof to 2 meters. Light floats if dropped in water. Its 3 modes include a strobe for signaling. With its integrated stand you can set it up for easy area illumination. Fully recharges in 4 hours.

### WAYPOINT RECHARGEABLE

# THE SIEGE SERIES

// STREAMLIGHT 2014/15

## STREAMLIGHT TECHNOLOGY: DECADES OF ILLUMINATION INNOVATION.

### RUGGED PERFORMANCE //

#### THE SIEGE:

- 340 LUMENS ON HIGH
- 12+ DAY RUN TIME ON LOW
- DROP TESTED TO 2 METERS

#### SIEGE 2AA:

- 200 LUMENS ON HIGH
- DROP TESTED TO 2 METERS

### VERSATILE //

- 3 WHITE LIGHT SETTINGS
- WILL HANG ANYWHERE
- D-RINGS CLIP ANYWHERE
- REMOVE THE TOP FOR DIRECT ILLUMINATION

### SURVIVOR //

- WATERPROOF
- ENGINEERED TO FLOAT
- RESISTANT TO BATTERY CORROSION

### RESCUE //

- SHINES IN SOLID RED
- MORSE CODE S.O.S. SIGNAL LASTS 18 DAYS (SIEGE) OR 12 DAYS (SIEGE AA)

# THE SIEGE: IT'S GOT SURVIVAL INSTINCTS.

## THE SIEGE® LANTERN

The Siege is brighter, more durable, and much more versatile than other emergency/camping lanterns. It's bright enough to light up a whole campsite. It runs for over 30 hours on high, and over 12 days on low! Its handle and D-rings allow you to hang it or clip it almost anywhere, upright or inverted. It has 3 white light setting, a red light for softer, less intense light, and an SOS mode. Remove the top for brighter light. Battery indicator flashes to alert you to low battery. It floats for easy retrieval; and it's waterproof to 1 meter. 2 meter impact-resistance tested. Unbreakable lens. Rugged, non-slip base.

### THE SIEGE

**BATTERY:** (3) "D" size alkaline

**SIZE:** 3.8" x 7.25"  
(9.65 x 18.41 cm)

**WEIGHT:** 1 lb 15 oz (878 g)

**COLOR:** Coyote

(1) RED LED	HIGH	FLASH/SOS MODE
<b>LUMENS:</b>	10	10
<b>RUN TIME:</b>	235h	430h

Versatile design features rugged carry handle and D-rings clip to hang virtually anywhere.

Shown with outer globe removed.

### Special Features:

- Floats for easy retrieval.
- Waterproof to 1 meter.
- 2 meter impact-resistance tested.
- Unbreakable lens. Rugged, non-slip base.

## SIEGE® AA LANTERN

The Siege® AA lantern features one C4® power LED, and two red LEDs. There are five output modes and a battery level indicator built into the on/off button. With the outer lantern globe in place, the light will float. Use the lantern with or without the outer globe cover. Remove the outer globe and hang the body upside down by the D ring for large area lighting needs. Battery replacement is a breeze with the center post orienting the battery cover correctly every time.

### SIEGE AA

**BATTERY:** (3) "AA" size alkaline

**SIZE:** 2.37" x 5.44"  
(6.00 x 13.82 cm)

**WEIGHT:** 8.8 oz (249.47 g)

# THE MOST TRUSTED RIGHT ANGLE LIGHT, JUST GOT THINNER, BRIGHTER & MORE VERSATILE. THE NEW SURVIVOR.

**SURVIVOR®**

The leading Class I, Div. 1 right angle, clip-on flashlight has been redesigned with a slimmer profile and a new clip/hook for more accurate light orientation. 4 light modes include high, low, flash, and a moonlight mode for low-level lighting that runs for 20 days. Spring-loaded clip easily attaches to belts and harnesses. Comes with two special interchangeable Smoke Cutter® plugs that help create your preferred beam pattern: Black plug significantly reduces peripheral light for a tighter beam while the Amber plug reduces peripheral light and eye fatigue caused by glare. Available in alkaline and rechargeable models.

All openings are O-ring sealed for weather-resistance. IPX4 water-resistant. 2 meter impact resistance tested. Unbreakable, scratch-resistant lens. Designed for easy operation even with heavy gloves.

## SURVIVOR

**BATTERY:** Rechargeable NiCd 4.8V, 1.8 Ah, 4-cell sub-C or (4) "AA" Alkaline depending on model selected

**THE HARD WORKING  
KNUCKLEHEAD...  
NOW CLASS 1, DIV.1 RATED.**

## STREAMLIGHT HAZ-LO® SERIES: // WHAT IS "INTRINSICALLY SAFE?"

Streamlight offers a variety of lights that are safety-rated for hazardous environments. We even have several lights that are "intrinsically safe"—these are lights that have been tested to ANSI/U.L.- Std-913 and found to be safe for use in a Division 1 classified environment.

While an intrinsically safe light would have a Class I, Div. 1 rating, it's important to know that not every product with a Class I, Div. 1 rating is intrinsically safe.

# STREAMLIGHT SAFETY-RATED SERIES.

## STREAMLIGHT GIVES YOU MORE SAFETY-RATED LIGHTS FOR MORE OPTIONS IN HAZARDOUS LOCATIONS.

Streamlight flashlights are tested and approved by the world's leading independent laboratories – including Underwriters Laboratories, ATEX, Demko, and the Mine Safety and Health Administration (MSHA). This testing is your assurance that the Streamlight flashlight you choose will be safe in the environment(s) in which you'll be using it.

4AA ProPolymer® LUX

3C ProPolymer® LED

## DIFFERENT LIGHTS FOR DIFFERENT HAZARDOUS LOCATIONS.

The National Electric Code (NEC) defines hazardous locations by “class” and “division.” There are three classes:

**CLASS I** locations are made hazardous by the presence of flammable gases, liquids or vapors.

**CLASS II** locations are hazardous because combustible dusts are present.

**CLASS III** locations contain easily ignitable fibers or flyings.

The “Division” designation refers to the likelihood that ignitable concentrations of flammable materials are present. There are two divisions:

**DIVISION 1** designates an environment where ignitable concentrations of flammable gases, liquids, vapors or dusts can exist some of the time or all of the time under normal operating conditions, or where easily ignitable fibers and flyings are manufactured, handled or used.

**DIVISION 2** locations are where ignitable concentrations are not likely to exist under normal operating conditions or where Class 3 materials are stored or handled.

Hazardous classes are further defined by “groups” based on the physical properties of their combustible materials. These groups include (but are not limited to):

- GROUP A** Acetylene
- GROUP B** Hydrogen
- GROUP C** Ethylene, carbon monoxide
- GROUP D** Propane, gasoline, naphtha, benzene, butane, ethyl alcohol, acetone, methane

- GROUP E** Metals including aluminum, magnesium (Div. 1 only)
- GROUP F** Carbonaceous dusts including coal, carbon black, coke
- GROUP G** Dusts not included in E and F including wood, plastics, flour, starch or grain dusts

## // STREAMLIGHT'S HAZ-LO LIGHTS - 2 STANDARDS PROVIDE DIFFERENT PATHS TO THE SAME RESULT: A DIVISION 1 RATING!

When working in a Division 1 area, we expect explosive atmospheres to be present. Streamlight's HAZ-LO product line is suitable for use in Division 1 areas. Streamlight uses different protection standards and testing at Nationally Recognized Test Labs (NRTL) to achieve the Division 1 rating that is common to all Streamlight HAZ-LO Lighting. This is the best possible performance while ensuring that your flashlight will not become an ignition source. ANSI/UL 783 is the specific standard for flashlights used in hazardous locations. ANSI/UL 913 is the intrinsically safe standard for general electronic equipment. While either standard can direct certification to Division 1 level, it is important to note Class, Group and Temperature code requirements to select the correct flashlight for specific applications.

## // WHY ARE SAFETY RATINGS IMPORTANT?

There are several types of locations in which it can be extremely dangerous to use any light that has not been specifically designed – and approved – for that kind of location. These are areas where fire or explosion hazards may exist due to the presence of flammable gases, liquids, vapors, dusts, or ignitable fibers or flyings. If you will be using a flashlight in any potentially hazardous location, it is critical that your light be safety-rated for that specific kind of environment.

## // ATEX RATINGS

Streamlight also offers safety-rated lights which comply with the European Union (EU) Directive 94/9/EC (ATEX) for products intended for use in potentially explosive atmospheres within the EU member countries. Please visit our web site ([www.streamlight.com](http://www.streamlight.com)) for more information on ATEX-rated products. We also have a catalog of ATEX-rated products available upon request.

## 3C PROPOLYMER<sup>®</sup> HAZ-LO<sup>®</sup>

An intrinsically safe, high-performance flashlight for hazardous locations. Produces a smooth, uniform beam with optimum peripheral illumination. Virtually indestructible body. Resistant to chemicals and solvents. Sealed switch design protects it from corrosion caused by battery leakage. Unbreakable, scratch-resistant lens. 3 meter impact-resistance tested. IP67-rated for dust-tight and waterproof to 1 meter for 30 minutes. IPX4 for water spray. Anti-static and non-conductive.

**3C PROPOLYMER HAZ-LO**  
**BATTERY:** 3 "C" size alkaline  
**SIZE:** 9.3" x 1.46" x 2.08"

## TLR-VIR® PISTOL

This combination bright white C4® LED and infrared illuminator is designed for use with a pistol. It has a lower profile than the original TLR-VIR, and it's waterproof to 66 ft. in its standard configuration. The IR illuminator is within the same lens as the white light. You can easily transition from white light to IR with a switch at the bottom of the light. There's no need to remove your eyes from the target or alter your firing grip. It has the standard momentary and constant-on ambidextrous switch as well.

### TLR-VIR PISTOL

**BATTERY:** (2) 3V "CR123A" lithium

**SIZE:** 3.39" x 1.47" x 1.44"  
(8.61 x 3.73 x 3.65cm)

**WEIGHT:** 4.2 oz (119 g) with batteries

**COLOR:** Black

69187 Includes rail locating keys for Glock style, 1913 Picatinny, S&W 99/TSW, and Beretta 90two, and 2 CR123A lithium batteries.

# SIDEWINDER... THE MOST VERSATILE MILITARY LIGHT IN THE WORLD.

## SIDEWINDER®

Meets a wide variety of hands-free illumination requirements with various color LEDs at different outputs. 185° tilting head and belt/web clip for multiple positioning/aiming of light. Designed for easy selection of light modes when in the field and when wearing gloves. IPX7-rated waterproof to 1 meter for 30 minutes. 3 meter impact-resistance tested. O-ring and gasket-sealed for waterproof operation. Meets MIL-STD-810F, METHOD 512.4.

### SIDEWINDER

**BATTERY:** (2) "AA" alkaline or (2) "AA" lithium for extended operation in extreme temperatures (-40°F to +150°F)

**SIZE:** 2.34" x 1.08" x 4.65"  
(5.94 x 2.74 x 11.81 cm)

**LITHIUM WEIGHT:** 4.38 oz (124 g)

**ALKALINE WEIGHT:** 5.02 oz (142 g)

**COLOR:** Coyote or Green

#### Military Model

14000 w/alkaline—White, Red, Blue, IR LEDs. Clam packaged. Coyote.

# LIGHTING THE WAY THROUGH NORTHERN IRAQ... AND ON TO AFGHANISTAN

*I just got back from yet another trip on the road, this time to northern Iraq. For the last 340+ days, your Stylus Pro pen light LED has been tucked into my ankle pocket providing instant access. I can't tell you how many times I've used it, but I can tell you that it's been so often that I successfully lost the clip it came with and have worn through the rubber coating over the button that turns it on and off. Thanks for such an awesome and reliable light. Power generation is still a huge challenge here, so having light at my fingertips was invaluable. I'll keep it in my pack for my next trip to Afghanistan, probably around next summer. Keep throwing the right kind of products out there, they're worth it.*

**Andrew J. "AJ" Brilla, Capt, USAF**

## STREAMLIGHT HAZ-LO® SERIES: // WHAT IS "INTRINSICALLY SAFE?"

Streamlight offers a variety of lights that are safety-rated for hazardous environments. We even have several lights that are "intrinsically safe"—these are lights that have been tested to ANSI/U.L.-Std-913 and found to be safe for use in a Division 1 classified environment.

While an intrinsically safe light would have a Class I, Div. 1 rating, it's important to know that not every product with a Class I, Div. 1 rating is intrinsically safe.

STREAMLIGHT HEADLAMPS GIVE YOU THE  
**VERSATILITY**  
**AND THE BRIGHTNESS**  
**YOU NEED TO ACCOMPLISH**  
**ANY TASK.**

**“TWIN-TASK 3AA: THE LIGHT THAT NEVER FAILS!”**

*Dear Streamlight, After three years of using your Twin-Task 3AA I had to write and tell you how pleased I am. I work in industrial maintenance, which requires me to repair heavy, dirty equipment in low light and dangerous conditions. I have tried all the other name brands and much more expensive lights that failed in one way or the other, but your light has not failed me one time.*

*It has been dropped from 30+ feet out of a lift, submerged in coolant and 90 degree oil. After an airline break it was slung across the floor into a concrete wall. And most recently, it was dropped into a grinding tank where it stayed for four days. When it was retrieved, the light was still burning strong. Other than a few dings and scratches it is still my most valuable tool. Should it ever stop working I will buy another.*

*Thank You, Kyle Rhodes*

**NFPA** Meets requirements of NFPA 1971-8.6 (2007); 500° heat resistance test  
**CE** Meets applicable European Community Directives

Congress created the National Fallen Firefighters Foundation to lead a nationwide effort to honor America's fallen firefighters. Since 1992, the non-profit foundation has developed and expanded programs that fulfill that mandate. Their mission is to honor and remember America's fallen fire heroes and to provide resources to assist their survivors in rebuilding their lives. For more information, visit [www.firehero.org](http://www.firehero.org).

## STREAMLIGHT CARES: THE PRODUCT THAT ALLOWS YOU TO SUPPORT CAUSES THAT MATTER.

By purchasing this product you are helping to make a difference in the rebuilding of the lives of surviving families and affected co-workers of law enforcement officers killed in the line of duty. In addition to rebuilding lives, C.O.P.S. provides training to law enforcement agencies on survivor victimization issues and educates the public of the need to support the law enforcement profession and its survivors. For more information, visit [www.nationalcops.org](http://www.nationalcops.org).

The Buckmasters American Deer Foundation, (BADF), founded by Jackie Bushman was born from the desire to give back to the hunting community, starting with programs such as Project Venison and Hunters of Tomorrow. Buckmasters Chapters from across the country continue to give to those in need. For more information, visit [www.buckmasters.com/resources/badf.aspx](http://www.buckmasters.com/resources/badf.aspx).

The Travis Manion Foundation honors and assists our nation's veterans, first responders, and the families of fallen heroes through various grants, scholarships, races, and The annual 9/11 Heroes Run. For more information, visit [www.travismanion.org](http://www.travismanion.org).

By purchasing this product, you are helping to make a difference in lives of those affected by diabetes. The mission of The American Diabetes Association is to prevent and cure diabetes and improve the lives of all people affected by diabetes. To learn more, please visit [www.diabetes.org](http://www.diabetes.org).

FOR EVERY CUSTOM NANO LIGHT® SOLD, STREAMLIGHT WILL DONATE \$1 TO THEIR RESPECTIVE ORGANIZATION.
